

BISMARCK IS TIRED  
BUT FEELING WELLPHYSICIANS FORBADE HIS SEE-  
ING CALLERS TODAY.

He Slept Well Last Night and Is En-  
joying Good Health Except For the  
Fatigue—Students From German  
Universities Visited and Greeted the  
Old Hero Yesterday.

Friedrichsruhe, Apr. 22.—Prince  
Bismarck slept well last night and  
arose at 10 o'clock, fatigued but in ex-  
cellent health. The doctors forbade  
his receiving any callers today.

Friedrichsruhe, April 2.—Since an  
early hour yesterday trains arrived  
here loaded with visitors from all parts  
of the empire desirous of congratulating  
Prince Bismarck on his eightieth birth-  
day. At 11 o'clock a deputation from the  
Zeydlitz Cuirassiers regiment, of  
which the prince is honorary colonel, ar-  
rived at the castle in order to congratu-  
late him. The cuirassiers were followed  
by a stream of other deputations, in-  
cluding one composed of university  
professors and another of senators from  
Hamburg, Lubeck and Bremen.

The dispatch of congratulation which  
King Oscar of Sweden and Norway  
sent to Prince Bismarck alluded to the  
latter as the creator of German unity.  
Emperor Francis Joseph of Austria  
was among those to telegraph their con-  
gratulations to the prince. A deputa-  
tion 4,000 strong from the different uni-  
versities of Germany proceeded to the  
castle at 2 o'clock in the afternoon.

PRINCE BISMARCK.

They took up positions in front of the  
terrace, and when Prince Bismarck ap-  
peared he was greeted with deafening  
cheers.

Replying to the address of the pro-  
fessors of the universities Prince Bis-  
marck said though he had been treated  
with such hostility by political parties  
it must not be taken too tragically. It  
was the way of the world to fight, he  
added, and from the fact that the peo-  
ple still attacked him he concluded his  
thoughts were not dead. The different  
groups of socialists, centrists and Poles  
took it ill of him for calling them the  
enemies of the empire, but he could sus-  
tain the truth of this remark by saying  
that theoretically they might all be  
well disposed toward the empire—pro-  
vided the empire was such as they de-  
sired. Continuing, the prince said it  
was to be regretted the socialists had  
not obtained the second vice-presidency  
of the Reichstag, because that would  
have shown that the affairs of the  
socialists were not ripe enough for res-  
olute action. The empire, with its  
growth out of practical facts, had to  
be reckoned with, and it must be the  
duty of all to preserve it.

He dilated upon the importance of  
the various steamship lines for the con-  
veyance of the emigrants and others  
across the ocean, declaring that the  
departure of Germans from Hamburg  
and Bremen for America did more to  
maintain the good relations between  
Germany and America than any official  
representation. If, he declared, all the  
Hamburg and Bremen people now liv-  
ing in South America should return  
home, it would be more harmful to the  
Germans than if all the German rep-  
resentative to those countries were done  
away with. This remark evoked much  
laughter.

In the early evening the spectacle at  
the Bismarck house and grounds was  
one of unparalleled beauty. As soon  
as darkness set in lights began to  
burn here, there, and everywhere about  
the grounds, and the lake in the rear  
of the Schloss gave back from its dark  
waters the reflection of hundreds of  
brightly flaring flames. From every  
window of the Schloss there gleamed  
a light, until from a distance the res-  
idence looked to be one glowing mass of  
fire.

It was well after midnight when the  
Prince descended the steps of the ter-  
race and witnessed a torchlight pro-  
cession march past. As they went by  
the torchbearers cheered loudly. Fi-  
nally Prince Bismarck withdrew, wish-  
ing his admirers a hearty good night.  
He added: "I am tired out and am too  
old to remain up longer."

With a final volley of cheers and cries  
of "Hoch, Bismarck" the procession  
passed from the grounds and the cele-  
bration at Friedrichsruhe came to an  
end.

## All Berlin Celebrates.

Berlin, April 2.—All the public and  
most of the private buildings were de-  
cked with flags and bunting in honor  
of the eightieth birthday of Prince Bis-  
marck. At all the schools the pupils  
assembled in order to hear special Bis-  
marck addresses. The pupils were then  
given a holiday. Many of the business  
houses were closed and all the main  
streets crowded with sight-seers. At  
the theaters there were special perfor-  
mances with prologues appropriate to the  
day which was being celebrated.

## Polish Priest Arrested for Arson.

Omaha, Neb., April 2.—The St. Paul  
Catholic church troubles broke out  
again yesterday, when Father Karmin-  
ski and eight of his followers were ar-  
rested for arson in connection with the  
burning of the church last week. It is  
alleged that there is a large number of  
witnesses who will swear the fire was  
first seen by them in the upper part of  
the building and that the lower part  
was entirely free from fire.

## FRENCH ARE INDIGNANT.

Newspapers of Paris Urge Government  
to Hide the Flag.

London, April 2.—The correspondent,  
in Paris, of the Pall Mall Gazette refers  
to the "hysterical extravagance" of the  
French press in regard to Great Britain  
and quotes Henri Rochefort as saying:  
"France is submitting to a series of  
humiliations in sending ships to Kiel  
to salute the victors of Werth and  
Wisssemburg. But worst of all, she has  
endured the insults of Great Britain  
without protest. Why does she not hide  
her flag?"

The Temps demands an apology or a  
reprimand and says: "The speeches of  
Ashmead, Bartlett and Sir George Cur-  
zon, an eastern commercial traveler, are  
not of the slightest importance, but we  
are aghast at the indiscretions of Sir  
Edward Grey and Mr. Joseph Chamber-  
lain."

## For Free Interstate Trade.

City of Mexico, April 2.—In official  
circles it is generally understood that  
President Diaz, in his message to con-  
gress, will recommend very earnestly  
the abolition of the interstate custom  
duties, which he considers an obstruc-  
tion to the development of trade and  
enterprise in the republic. He will take  
a hopeful view of the condition of the  
national finances, showing that both  
from customs collections and the stamp-  
tax the receipts are now very favorable,  
and will touch on the Guatemalan mat-  
ter and the United States affairs.

## Attempt to Kill a Rabbi.

Cincinnati, Ohio, April 2.—An attempt  
to assassinate Rabbi M. Wise, presi-  
dent of the Hebrew Union college, and  
one of the best known Jewish divines  
in the country, was made last night  
at his residence, 55 Mound street. The  
venerable rabbi was entertaining a  
company when a large vase on the table  
suddenly exploded, cutting Benjamin  
May badly in the face and painfully  
cutting several other guests. Sergt.  
Messersmith heard the explosion,  
rushed in and found that the vase had  
been filled with gunpowder. The affair  
is a mystery.

## Rain Quenches Forest Fires.

Jeffersonville, Ind., April 2.—The rain  
yesterday quenched the forest fires  
which have been raging in southern In-  
diana. In the vicinity of Borden the  
fire has destroyed many thousand dol-  
lars' worth of property. A large amount  
of stock was burned to death and fencing  
and buildings have been reduced to  
ashes. In the country surrounding  
English losses to the extent of \$30,000  
have been reported. Every man, woman  
and child has been assisting fighting the  
flames.

## Deadly Explosion of a Mill Boiler.

Saginaw, Mich., April 2.—The boiler  
in the boiler house of the mill plant of  
Emery & Simpson exploded at 6 o'clock  
last evening, wrecking the boiler house

bruised on the side and arm.

been in the employ of the company for  
fifteen years. An expert accountant is  
now engaged on the books.

## Taylor Murder Trial to End To-Day.

Carrollton, Mo., April 2.—The argu-  
ment in the Taylor murder trial will  
close and the case be given to the jury,  
it is expected, some time this afternoon.  
Although the defense is sanguine a  
hung jury will result the general opin-  
ion is expressed that a verdict of murder  
in the first degree will be quickly  
rendered.

## Extra Session Probable in Missouri.

Jefferson City, Mo., April 2.—Lieut.  
Gov. O'Meara was in conference yester-  
day with Gov. Stone, but would say  
nothing in regard to the probable call-  
ing of an extra session. The governor  
has not yet prepared his call, but it is  
almost certain it will be issued to-night  
or to-morrow.

## Small Fire Loss at Cornell, Ill.

Cornell, Ill., April 2.—Fire caused a  
loss of \$12,000 here yesterday. The  
flames spread so fast that the occupants  
of the houses had little time to save  
anything. The town has no fire pro-  
tection and the flames burned them-  
selves out. The property burned was  
insured for half its value.

will be the only one of the surviving  
generals present on this occasion.

tial strike of the glassworkers of the

ing 4,000 persons out of work. The ex-  
pected strike of the miners has not oc-  
curred.

## Czarowitz III in Algiers.

Copenhagen, April 2.—Disquieting  
news has been received here from Al-  
giers in regard to the health of the czar-  
owitz. His mother, the dowager em-  
press of Russia, will probably shorten  
her stay here.

## Will Pay the Increase.

Pittsburg, Pa., April 2.—Connell-  
ville coke operators will pay their men  
the 16 cents increase.

BABES BUTCHERED  
BY THEIR MOTHERTHE AWFUL DEED OF AN  
OHIO MOTHER.

Mrs. Williams of Grove City, Cuts the  
Throats of Her Little Son and  
Daughter at a Columbus Hotel  
While Temporarily Insane—Indiana  
Farmer's Suicide.

Columbus, Ohio, April 2.—Two chil-  
dren of Mrs. H. H. B. Williams of Grove  
City were found dead in bed in the Park  
hotel yesterday afternoon with their  
throats cut from ear to ear. Their names  
are Harry, 7 years old, and Maud, aged  
12. A third child, Annie, aged 13, was in  
the room, but escaped unharmed. The  
murder was committed by the mother,  
who had disappeared. Later she was  
arrested. She showed no evidences of  
insanity and told the story of the horri-  
ble crime in a calm voice. She said she  
had made up her mind last week to kill  
herself and her children and came to  
Columbus Saturday for that purpose.

She secured some opium and all three  
took the drug Saturday night. It took  
effect only on the little girl Maud. She  
then determined to secure a razor and  
waited until the morning. She first cut  
the boy's wrist, expecting him to bleed  
to death. He awakened, however, and  
then she cut his throat. The body of  
Maud was not touched by the razor.  
Mrs. Williams said she then asked An-  
nie to let her cut her wrist, but the child  
begged so piteously that she lost cour-  
age and left the hotel, intending to  
drown herself. She said it then occurred  
to her that Annie might be accused of  
the crime, and she changed her mind  
and went to the house of a friend, Mrs.  
John C. Lester, in another part of the  
town, where she was found in the even-  
ing.

Dr. Frank Warner was called to the  
hotel about 3 o'clock in the afternoon  
by the proprietor, C. C. Alward, as  
soon as the crime was discovered. The  
doctor was escorted to the room where  
the two victims of the murder lay. The  
children were both in their night cloth-  
ing. The little girl, Maud, had her  
throat cut almost from ear to ear. At  
the foot of the bed lay a razor with  
which the crime had been committed.  
The doctor said the position of the lit-  
tle girl indicated she had struggled  
desperately for her life. She had evi-  
dently been thrown down and held in  
that position face downward while she  
had been slain. Harry's body did not  
indicate much of a struggle.

Mr. Williams arrived in the afternoon.  
He said his wife left home Saturday and  
came to Columbus, but he did not know  
why. He said they were not separated.  
He refused to talk of the crime and ab-  
solutely prevented his daughter Annie  
from making any statement. The child  
was apparently willing to tell what she  
knew of the affair until checked by her  
father. Annie, before being stopped by  
her father, said her mother got up early  
but did not leave the hotel till 8:30  
o'clock. Before she went away she told  
Annie not to go near the bed. Just  
what excuse she made the child for  
giving this instruction is not known.

But the little girl obeyed the in-  
structions and kept away from the bed.  
If it had not been for Annie's faithful  
obedience to her mother's injunction  
the dead bodies of the little ones would  
have been discovered much sooner. As  
it was the murder was not known till  
the chambermaid came to make up the  
beds. Mrs. Williams is a woman of  
about 30 or 40. A resident of Grove  
City says he never knew any trouble in  
the Williams family, and never heard  
of or suffered from brain trouble.

## KEHRES KILLS HIMSELF.

Jealousy Causes an Indiana Farmer to  
End His Life.

Elkhart, Ind., April 2.—Wilson Kehres  
a farmer aged 28 years, was found dead  
four rods from his house a few miles  
north of this city yesterday with two  
bullet holes in his body. Kehres is sup-  
posed to have shot himself on account  
of trouble with his wife over a neighbor  
named Mosier. Sunday night Kehres  
went to Mosier's house to see him about  
the matter, and apparently shot him-  
self while on his way back home. Mrs.  
Kehres and Mosier, who is a married  
man, have disappeared and cannot be  
found. Kehres leaves three children.

## Five Years for Schwabacher.

Peoria, Ill., April 2.—Julius Schwa-  
bacher, son of the millionaire distiller,  
who a year ago was caught robbing  
the residence of Mrs. Frank Bell, was  
yesterday found guilty and his pun-  
ishment fixed at five years in the Joliet  
penitentiary. When the case was  
called last week the defense set up the  
plea of insanity, assigning as a cause  
therefor too much drinking and smok-  
ing cigarettes. It took the jury only  
about an hour to arrive at a verdict.  
The defense immediately entered the  
usual motion for a new trial and it  
will be heard in a few days.

## Postoffice Safes Easily Robbed.

Omaha, Neb., April 2.—The South  
Omaha postoffice was entered by safe  
robbers Sunday night and robbed of  
\$5,000 in money and stamps. The base-  
ment vault had also been entered, but  
\$3,500 in stamps, though they had been  
handled by the thieves, were not  
taken. It is thought the thieves were  
frightened away. The work is that of  
professionals. After drilling a small  
hole at the right place on the combi-  
nation a small wire was successfully  
used and the tumbler turned the com-  
bination was known. After robbing the  
safes the thieves again locked them.

## Spain Calls for More Men.

London, April 2.—A dispatch from  
Madrid to the Pall Mall Gazette says  
that in order to replace the troops that  
have been sent as re-enforcements to  
Cuba the government will call out 20,000  
men. Gen. Martinez de Campos, who  
is to assume full command in Cuba,  
held a farewell audience with the queen  
regent last evening.

CRASH ON THE RAIL  
COST A MAN'S LIFETWO TRAINS RUN TOGETHER  
NEAR BANGOR, ME.

Fireman Was Killed and Many Others  
Are Said to Have Been Injured In a  
Wreck on the Bangor & Bristol  
Line—Further Details of the Wo-  
burn, Mass. Explosion.

Bangor, Me., April 2.—The fireman  
was killed and several other people in-  
jured when two passenger trains col-  
lided on the Bangor & Bristol road  
this morning.

Woburn, Mass., April 2.—The explo-  
sion of a boiler at Loring's tannery,  
located at this place, which occurred at  
7 o'clock yesterday caused great loss  
of life and extensive destruction of  
property.

The explosion was of such a terrific  
nature that the recovered bodies were  
badly mutilated and disfigured, render-  
ing the matter of identification one  
of great difficulty. Some of the corpses  
present little more than the appear-  
ances of a human trunk, dismembered  
of legs and arms.

The dead:  
AUSTIN CLEMENS, foreman.  
PATRICK LALLY, fireman.  
THOMAS PATTERSON, night fore-  
man.

PATRICK M'GONAGLE, oiler.  
SAM TRACY.  
The injured are:  
John Kenny.  
John Tracey.  
Patrick Riley.  
James Lyon.  
Octavius Saunders.

When the accident occurred it seemed  
that an earthquake had shaken the en-  
tire vicinity and pieces of the buildings  
and machinery were hurled great dis-  
tances from the site of the tannery.  
Other buildings located near the boiler-  
room were badly damaged.

There had been trouble with the  
boiler for some time and yesterday  
John Parker, foreman of the plant, was  
called to the boiler-room to see if it  
couldn't be fixed. It was found that  
the water supply could not be satisfac-  
torily adjusted, but this was remedied.  
By the time the tannery opened for the  
day it was thought that the boiler was  
all right.

Five minutes later Mike Parker en-  
tered the boiler-room and ordered that  
the whistle be blown to start the works.  
The rope attached to the whistle was  
pulled and instantly there was a fear-  
ful explosion. The big iron smokestack  
on the boiler-house was blown high into  
the air and fell across the roof of the  
shop and the tall brick chimney fell,  
crushing the engine-room.

When the smoke and dust cleared  
away a scene of wreck and ruin was re-  
vealed. Men hurried from all parts of  
the town and the work of removing  
those buried under the ruins was com-  
menced.

The piteous cries of the injured men  
planned under the debris urged the res-  
cuers on to rapid work and in a short  
time the bodies of four men had been  
removed and five of the injured had  
been taken out.

It was then found that one of the  
four boilers had been blown to pieces,  
completely wrecking the boiler-house  
and demolishing several buildings near  
by. The head of the boiler fell 200  
yards from the tannery and the boiler  
tubes were scattered in every direction.

## GUNS FOR THE REBELS.

Big Stores Believed to Be En Route to  
the Cuban Islands.

Progreso, Yucatan, April 2.—A fishing  
bark just in off the gulf of Mexico re-  
ports having encountered two unknown  
boats, heavily armed with cannon and  
apparently well equipped with all the  
munitions of war. When hailed the  
boats made no reply and the fisher-  
men, being afraid to make any further  
advances, made their escape from the  
locality as fast as possible.

It is thought the ships have some  
bearing on the Cuban revolution, al-  
though it is reported that there are  
pirates manned by renegade Cubans  
coasting about the waters of the gulf  
and along the coast of South America.  
Numbers of strangers have been seen  
in Progreso, Campeche, Merida and  
other points in Yucatan. It is alleged  
they are insurgents and are in Mexico  
for the purpose of gaining recruits for  
the rebel cause in Cuba. Cuba has  
many sympathizers in Mexico in the  
attempt to throw off Spanish rule.

## Is Told to Fix the Responsibility.

Butte, Mont., April 2.—Judge Speer,  
of the District court yesterday sum-  
moned a grand jury and instructed it  
to investigate the great dynamite ex-  
plosion of Jan. 15, by which fifty-nine  
men were killed and a hundred or more  
injured. The judge told the jury some-  
one was responsible for the death of  
these men, and he hoped the blame  
would be fixed by the jury. The pro-  
secuting attorney had refused to take  
the responsibility of filing an informa-  
tion, and the grand jury was called.

## Woman Suffrage Probable in Utah.

Salt Lake, Utah, April 2.—The con-  
stitutional convention debate on suffrage  
for women closes to-night. An advance  
census practically assures the adop-  
tion of woman suffrage as part of the  
constitution.

## Two Battles Took Place.

Yokohama, April 2.—Col. Ito's official  
report of the capture of the Pescadore  
islands says that Makuku castle was  
not taken until two engagements had  
been fought. The Chinese lost thirty  
killed and sixty prisoners. The Japa-  
nese lost one killed and sixteen men  
were wounded.

## Killed by a Policeman.

Cincinnati, Ohio, April 2.—Late last  
night in St. Bernard Policeman Barney  
Degnan arrested John Fisher, aged 20  
years, for using abusive language. On  
the way to the station-house Fisher  
started to run away, whereupon Deg-  
nan shot him to death.

## REPUBLICANS WIN AT GALESBURG

The Democrats Concede Their Defeat In  
the Congressional Fight

Galesburg, Ill., April 2.—Returns  
received up to noon from each of the  
six counties embraced in the tenth  
congressional district indicate that a  
heavy vote is being polled in the elec-  
tion for representative to succeed the  
late General Post. The candidates  
are George W. Prince, republi-  
can; Fred K. Bastain, democrat;  
and E. H. Kempster, populist. It is  
conceded this afternoon that Prince  
will be elected by fully 12,000 plural-  
ity, as the district is overwhelmingly  
republican. The full democratic vote,  
however, will go to Bastain, who is  
extremely popular both within and  
without the party lines.

## RUN A CO-OPERATIVE RAILROAD

Georgia Workingmen May Buy the Ger-  
man Southern Line.

Macon, Ga., April 2.—There has  
been some talk among the work-  
men of Macon of organizing a co-opera-  
tive company for the purchase of the  
Georgian Southern and Florida rail-  
road, which, by decree of the court,  
will again be offered at public auction  
this afternoon.

## TO HONOR THOMAS JEFFERSON

brate His Birthday.

ocrats of this section of the state have  
made extensive preparations for the  
celebration of Jefferson's birthday by  
an elaborate banquet this evening.

## SOLDIERS TO RIDE BICYCLES.

General Miles Pleased With the Evolu-  
tions At New York City.

New York, April 2.—General Miles  
and staff this afternoon witnessed an  
exhibition drill of the bicycle corps of  
the Seventh Regiment and expressed  
their hearty approval of the new  
movement.

## RETAIL JEWELERS IN SESSION

The Iowa Association In Annual Meeting  
At Des Moines.

Des Moines, Ia., April 2.—The Iowa  
retail jewelers' association began its  
second annual convention at the Sa-  
very today with a large attendance of  
members from all over the state.

## SAY GRESHAM IS TO QUIT.

Resignation of the Secretary of State  
Thought to Be Impending.

Washington, April 2.—Another vac-  
ancy in the cabinet, it is rumored, may  
occur within the next few weeks. Sec-  
retary Gresham is the official who is  
slated for voluntary retirement. The  
report comes from several of his close  
friends, to whom it is said he has more  
than once expressed his desire to return  
to the practice of law, if not to the  
bench. Judge Gresham's relations with  
the President, so far as known, are of  
the pleasantest. No member of the  
cabinet has been more trusted by Mr.  
Cleveland, so that his desire for retire-  
ment from office in the near future can  
not be ascribed to any friction with his  
chief. The rumor is that Judge Gresham  
will retire from the cabinet before  
July 1. No date has been absolutely  
fixed. As friends of Judge and Mrs.  
Gresham are discussing the secretary's  
probable withdrawal, it is not unlikely  
the subject has been discussed with the  
President and the cabinet. Mr. Cleve-  
land would no doubt use every influence  
to persuade Judge Gresham to remain  
until the close of the administration.

## Spirited Elections in Minnesota.

St. Paul, Minn., April 2.—Several  
Minnesota cities held their elections  
yesterday. The principal contest was  
at St. Cloud, where there were three  
candidates for mayor, all independent  
—Joseph R. Boyd, H. G. Wire and H. S.  
Locke. Boyd was elected by a plural-  
ity of 200 over Wire. John Howard  
was elected president at Dodge Center,  
and "no license" won. License was  
given a large majority at Lanesboro,  
where Edward Johnson was elected  
mayor. S. Bacon was the successful  
candidate for president at Winnebago  
city.

## Blood May Be Shed at Perry.

Perry, Okla., April 2.—There is a  
deal of excitement here over the city  
election to be held to-day and it looks  
as if blood will be shed. The present  
republican city officers contend that no  
election is to be held at this time, and  
up to this time, no tickets have been  
printed. The democrats and populists  
have fused and the republicans have  
nominated an independent ticket, but  
the present officers, who were left off  
the independent ticket, and who have  
considerable of a following, are deter-  
mined that no election shall be held.

## Bank at Stevens Point, Wis., Fails.

Stevens Point, Wis., April 2.—The  
Commercial bank closed its doors yester-  
day. The statement is made that the  
bank is quite solvent and will pay every  
dollar it owes. Byron B. Park was ap-  
pointed receiver. The liabilities are  
about \$60,000 and the assets \$100,000.  
This bank closed its doors during the  
panic of 1893, but opened again immedi-  
ately. The president of the bank is one  
of the owners of "B. B. P." the famous  
trotting horse. The horse was named  
after Byron B. Park, the receiver of the  
bank.

## The Michigan Elections.

Detroit, Mich., April 2.—The republi-  
cans have carried the state, but by a  
reduced majority from last fall's elec-  
tions. The returns have been coming in  
with provoking slowness from the in-  
terior country, but those at hand show  
that not more than two-thirds of the  
normal vote has been polled. Returns  
up to 1 o'clock last night seem to in-  
dicate that Judge Moore for justice of  
State Supreme court may have not less  
than 30,000 majority. The silver issue  
does not appear to have cut much of a  
figure.

NEW OUTLET LINE  
FOR BADGER PINEEASTERN MARKETS WILL BE  
EASIER TO REACH.

So Called Merrill Antigo & Eastern  
Line Said To Be Simply a Part Of  
the Wisconsin & Michigan Road—  
Branches To Be Built Into the  
Timber Sections.

Marinette, April 2.—Wisconsin pin-  
eries will get a new outlet to the east-  
ern markets in the form of a railroad.  
A prominent lumberman of this city  
said this morning that the so-called  
Merrill-Antigo & Eastern Railroad  
was really a portion of the Wisconsin  
& Michigan line, and that the deal  
had been made some time ago whereby  
extensions could be made to the cen-  
tral Wisconsin pines. The terminus  
of the road will be at Peshtigo and  
car ferries will carry freight to  
Michigan across the bay.

## NEW PLAN FOR PRIMARIES.

Substitute Bill to Be Introduced in the  
Michigan Legislature.

Lansing, Mich., April 2.—A substi-  
tute for the various primary election  
bills before the legislature will come up  
this week. The principal provisions of  
the bill are that precinct primaries of  
each party shall all be held one day in  
the polling booths, which shall be kept  
open from 3:30 p. m. to 7:30 p. m. In-  
spectors of primaries shall be elected  
at previous primaries, and the chair-  
man of the party ward committee will  
be chairman of the primary inspector  
board. All voting is to be done ac-  
cording to the latest registration list  
and voters must make oath they belong  
to the party holding the primary.  
Duplicate returns of the action of the  
caucus are to be sent to the city clerk  
and proxies in convention will not be  
permitted, as vacancies are filled by  
vote of the delegation itself. An at-  
tempt to bribe a delegate at a conven-  
tion or primary is made punishable by  
a fine of \$1,000 or nine years' imprison-  
ment, or both.

FIRE AT SHOPIERE  
IS HARD TO FIGHT

THEREFORE MR. HOLLISTER'S  
HOUSE WAS DESTROYED.

Bucket Brigade Kept the Adjoining  
Property From Igniting and Volun-  
teers Saved the Furniture—Milton  
College's Spring Term Opens—  
Milton Junction Glad to Get Rain.

SHOPIERE, April 2.—Fire was dis-  
covered about 8 o'clock in the roof of  
John Hollister's house, and as there  
is no fire apparatus in the village the  
house had to go. The contents were  
removed by neighbors. Mr. Uheling's  
house, is located about sixteen feet  
from the Hollister residence and the  
volunteer bucket brigade had hard  
work to save it. There was plenty of  
help and plenty of water however, and  
the building was saved. Mr. Hollis-  
ter's house took fire from the  
pipe in the chimney. The house  
and barn were insured for \$300.  
The clench parties held at the hall are  
becoming more interesting every meet-  
ing. At the meeting held on Thurs-  
day evening March 14, the winners of  
the prizes were: Mrs. Addie Weirick,  
first; Mrs. Henry Brown, second;  
Charles Rice, first; Charles Shimeall,  
second. On Thursday evening, March  
28, Mrs. Philo Bostwick, first; Mrs. C.  
H. Weirick, second; John Knipsheld,  
first; Lewis Miller, second. Afton was  
pretty well represented at the last  
party. The patrons of the Shopiere  
creamery are requested to meet  
at the factory on Thursday evening,  
April 4 at 7 p. m. to elect officers for  
the ensuing year. The sudden death  
of Orsamus VanGelder on Saturday  
morning, March 30, was unexpected  
and a terrible shock to his friends  
and relatives, of which he had many.  
He was always considered a well and  
healthy man. Heart trouble is sup-  
posed to be the cause of his death.  
Phil Golden is home from the hospital  
at Janesville, is doing well, and is  
able to get out of doors when the  
weather will permit.

dation for the new residence, which  
Mrs. C. B. Inman will erect on the  
site of the structure recently burned.  
John Bartels is reshingling the house  
occupied by Fred Bartling. A very  
pleasant party was given at the resi-  
dence of Mrs. Nellie McCrea last Fri-  
day evening, the event being in the  
nature of a surprise for Mr. and Mrs.  
W. C. Phoenix, who are soon to move  
from Afton. Mr. Phoenix has accept-  
ed a position with Reese & Andersen,  
the Lima merchants, and will move  
back to that town. We are sorry to  
lose these good people from our midst.  
Mr. and Mrs. W. H. Eldredge visited

spread with a bountiful supper of  
which they all partook and then  
wended their way home. Mrs. E. I.  
Hallett was shopping in Edgerton last

Work Will Be Begun As Soon As Pos-  
sible—S. D. Grubb to Erect a Hand-  
some Flat Building—Louis Schutt  
Will Erect a Block On North Main  
Street.

Janesville is to have a fine new  
hotel. It will be built by E. O. Smith,  
on the site of the present hostelry, the  
Badger house, at the corner of Acad-  
emy and Wall streets. The plans pre-  
pared show a modern, three-story  
building, and work will be begun as  
soon as possible. Mr. Smith has been  
in the hotel business in Janesville for  
twenty-seven years and is widely and  
favorably known. He will attend to  
the management of the new house in  
person, which is a guaranty that the  
place will be conducted on the same  
lines that have won success for Mr.  
Smith. The new building will be a  
substantial addition to the city's busi-  
ness buildings and a credit to the  
owner and the town.

S. D. Grubb is figuring on plans  
for a handsome modern flat building  
to be erected at the rear end of the  
present Grubb block at the corner of  
Milwaukee and Jackson streets. While  
nothing is really settled upon, Mr.  
Grubb said today that the probabili-  
ties were in favor of the project.

Another substantial addition to the  
business property of the town will be  
a block to be built by Louis Schutt on  
the two vacant lots at 39 and 41  
North Main street. The plans for the  
edifice are now in the hands of the  
architect.

Shore Acres.

Home life as it actually exists, is  
what Mr. Herne has painted for the  
public in his ideal play "Shore Acres"  
which is underlined for tonight.  
The scenes are located at Lemoine,  
a small country village that faces  
Frenchman's bay on one side, and on  
Jordan river on the other. The char-  
acters have their living prototypes,  
and Mr. Herne knows nearly all of  
them personally. "Shore Acres" may  
be credited with having made the  
greatest success of any New England  
play yet written. It has been praised  
by everybody, and clowns have been  
written upon its great moral influence.  
One of the best things in "Shore  
Acres" is the character of Nathan  
Berry. It is an ideal character. That  
it will always live in the annals of the  
stage is beyond question, many able  
critics even now ranking it with the  
Rip Van Winkle of Joseph Jefferson  
and the Hamlet of Edwin Booth.

Don't Know What To Do.

We don't know what to do with the  
large stock of spring clothing we have  
on hand. We bought too heavy.  
Must sell. Our regular prices are  
away below any we ever quoted, and  
we, as you know, always quoted the  
lowest, but now as we are cutting this  
early in the spring it means a great  
sacrifice to us, and a big gain to you.  
T. J. ZIEGLER.

A Busy Store.

Tomorrow and Wednesday our store  
will present a State street scene. It  
will be clock day; spring scraps of all  
sorts and descriptions will be shown—

HE PUTS IT STRONGLY.

But He Simply Echoes The Thought Of  
Thousands.

There Is the Ring of Truth and Sin-  
cerity In His Words.

And He Will Be Believed By All Who  
Read What He Says.

The sincere words of truth are what  
the world wants.

No one can read the following earn-  
est words and not be struck with their  
truthful sincerity. We have no doubt  
also that they echo what is in the  
minds and hearts of thousands. The  
young man who uttered them, Samuel  
W. Thomas, is one of the brightest  
and best known of the many bright  
young men of Abington, Mass.

"I thank God," he said, "that at  
last a cure has been found for nervous  
diseases. They are certainly the most  
terrible of all disorders, for they af-  
fect the mind and depress the spirits  
as well as weaken and exhaust the  
body."

"I was almost crazy at times, I was  
so nervous, weak, sleepless and dis-  
couraged."

"I tried doctors and medicines, but  
never found relief for more than a few  
days, and then the troubles would  
come on again worse than ever."

"Finally I heard of Dr. Greene's  
Nervura blood and nerve remedy, and  
I used it, and now I am perfectly well  
again. I owe it all to this wonderful  
medicine, and I say with all my heart,  
God bless Dr. Greene's Nervura blood  
and nerve remedy, for I would have  
been in my grave but for it. Raised,  
as it were, from the dead, and alive  
and well! Only think of it, friends."

MR. SAMUEL W. THOMPSON.

"I have gained ten pounds in  
weight and am feeling strong and  
vigorous. It is indeed the remedy  
that cures, and I think it the king of  
all medicines. I cannot express  
thanks enough for the wonderful  
good it has done me."

Mr. Thompson is certainly an earn-  
est believer in this wonderful dis-  
covery of Dr. Greene, Dr. Greene's  
Nervura blood and nerve remedy, and  
he has reason to be. Nervous diseases  
are the most terrible of affections and  
lead to insanity, paralysis, heart fail-  
ure or complete nervous and physical  
prostration. Whatever will cure ner-  
vous disorders and save people from  
these awful results, is the greatest dis-  
covery possible to be made.

This great remedy does cure. It  
does give strength and vigor to the  
nerves and restores vitality to the  
blood and body. It cures, and this is  
exactly what the people want. And  
they especially want it at this season  
of the year, for this grand spring in-  
vigorator is essentially necessary if  
one would keep in perfect health.

Dr. Greene, its discoverer, is the  
most successful specialist in curing all  
forms of nervous and chronic diseases.  
His office is at 35 West 14th street,  
New York city, where he can be con-  
sulted without charge. Those who  
cannot call at the office can have con-  
sultation by letter free.

Our Front Doors Open.

Our front doors were open all day,  
even if it was election day, and we  
waited upon nearly 150 customers.  
This isn't bad on such a day. The  
kind of clothing we have sells all the  
time.

B. H. Bowman, Pub. Enquirer, of  
Bremen, Ind., writes: Last week our  
little girl baby the only one we have  
was taken sick with the croup. After  
two doctors failed to give relief and  
life was hanging on a mere thread we  
tried One Minute Cough Cure and its  
life was saved. C. D. Stevens.

In Our New Home.

This time Thursday we will be  
safely housed in our new quarters. A  
prettier or more inviting place is not  
in the town. We have made every  
effort to have our store room worthy  
of your appreciation and how well we  
have succeeded is for you to say.

La grippe is here again with all  
its old-time vigor. One Minute Cough  
Cure is a reliable remedy. It cures  
and cures quickly. C. D. Stevens.

Millinery Opening.

We respectfully solicit inspection of  
our grand display of pattern hats and

ing styles both correct and practical

Young Folks In Queer Garb.

Youthful masqueraders had a jolly  
time at the parlors of All Souls' church  
last evening, and the event was a  
great success. Not only was it a com-  
plete affair socially but the proceeds  
were sufficient to pay up the balance  
of organ fund. About sixty young  
people joined in the festivities, and the  
fun lasted from 7 until 10 o'clock.  
Light refreshments were served after  
the unmasking, and dancing to the  
music of Tuckwood's orchestra fol-  
lowed.

## FASHIONABLE FANCIES.

Ladies, Look Out For That Insidious Enemy, the Crinoline.

The blouse is still to be with us, it seems, in the coming season, and in the models we have seen of the spring and summer goods of this kind much taste and variety are displayed. Bishop sleeves seem the favorite ones for the new blouses. Colored shirts, too, with stiff fronts like a man's, will be once more to the fore, worn with black or white narrow tie bows. Jerseys will also renew their long lease of popularity, more especially for outing uses.

Crepon is the material of the season, being more worn, in both its expensive and cheaper weaves, than anything else.

CASHMERE GOWN.

Corsets of the same material as the undershirt and trimmed to match are the latest freak of Parisian women.

There are few garments allowing of greater variety or more elegant fancy than tea gowns. All that is rich and dainty in fabric, trimming and design is pressed into the service of these artistic and luxurious robes unsparingly, and the result is certainly often as lovely as the most fastidious taste could desire.

It was decided last season that the crinoline was to be debarred entrance to fashionable society, yet it seems that it is again trying to insinuate itself, and if skirts keep on increasing in size there seems to be every chance for its success. One of the new Parisian skirts—a crepon one, not muslin—is more than nine yards in circumference. Skirts of such dimensions require some sort of support, and to line them throughout with horsehair cloth increases their weight tremendously, to say nothing of the fact that haircloth, which is very narrow, is steadily rising in price every week, and that enough for a lining will soon cost as much as the gown material and trimmings.

The gown shown in the illustration is of orange brown cashmere and mousseline de sole. The skirt is of cashmere and is trimmed with vandykes and insertion of Irish guipure. The bodice of accordion plaited mousseline is partly covered by a large guipure collar fastened with black velvet choux. The belt and collar are of black moire.

## WORTH, THE GREAT DRESSMAKER.

Effective Princess Costume In Gray Cloth For a Young Girl.

The galaxy of fashion has lost one of its brightest stars in the person of M. Worth, whose death occurred not long ago. Mr. Ward McAllister's demise was the mere snuffing of a candle beside M. Worth's disappearance, for Mr. McAllister influenced but one coterie of society in one city, while M. Worth was potent all over the civilized globe.

As his obituaries have made all readers familiar with the details of his life, it is probably unnecessary to remind them that, although the famous costumer was identified with Paris, he was in reality an Englishman by birth and parentage and did not settle himself in France until man-

hood, and then in a subordinate position. He was 33 years old before he started in business for himself, and he began in the premises which he continued to occupy all the remainder of his life. In latter days his establishment turned out between 8,000 and 7,000 gowns and between 3,000 and 4,000 cloaks a year. His sons were his chief assistants, M. Gaston Worth taking sole charge of the counting house, while M. Jean Worth occupied himself in the technical part of the business, in which he bids fair to be a worthy successor of his clever father.

The idea of a mercantile house which should make up as well as sell material was original with the paternal Worth, who first induced his Parisian employers to try the experiment, and afterward conducted his own house on the same principle. Any course of action which succeeds is sure to be imitated by hosts of persons, and in his later years M. Worth had numerous formidable rivals in business, although there was a certain charm in his name which was always felt by the conservative. Today's illustration shows a young girl's costume of gray cloth in princess style. The skirt is finished plainly, with rows of stitching. The bodice, which closes on the left side, is close fitting, and is adorned with an immense square collar of white cloth, with white ends in front. A narrow plastron of white embroidered cloth divides the collar from throat to waist, where it is closed by a silver buckle. The collar consists of a ruche of white satin ribbon.

## New York Wants Wool.

Boston is at present the great wool market of the United States, but New York is making a strong bid for the wool trade by erecting a mammoth warehouse for the storage of the product.

NEW WOOL EXCHANGE IN NEW YORK.

The scheme is projected by the New York Wool Warehouse company, which has begun the erection of a building 11 stories high in Beach street. The structure will cover an area of about 15,000 square feet, and within its walls may be stored 25,000,000 pounds of wool.

## The Mother of Christian Science.

The Church of Christ, Scientist, erected at a cost of \$250,000, was recently dedicated at Boston. A tablet imbedded in its wall declares that it was built as "a testimonial to our beloved teacher, Rev. Mary Baker Eddy, discoverer and founder of Christian science." Mrs. Eddy says she discovered Christian science in 1866. She studied the Scriptures and the sciences, she declares, in a search

for the great curative principle. She investigated allopathy, homeopathy and electricity without finding a clue, and modern philosophy gave her no distinct statement of the science of mind healing. After careful study she became convinced that the curative principle was the Deity, and belief in the Deity the cure. She was twice married before she became Mrs. Eddy. Her first husband died, and she was divorced from No. 2.

## Author of the "Elsie" Books.

Miss Martha Finley, the author of the well known "Elsie" and "Mildred" books for the young, was born in Chillicothe, O., April 26, 1828. When Miss Finley began writing Sunday school books at the age of 26 years, she adopted the pen name of "Martha Farquharson."

Between 1856 and 1870 she wrote over a score of Sunday school books and several series of juvenile books, one series containing a dozen volumes. "Elsie Dinsmore" was published in 1876. The book became very popular among children, and Miss Finley has been compelled to write over a score of "Elsie" books to appease her eager young readers. Miss Finley lives at Elkton, Md.

1743—Thomas Jefferson born at Shadwell, Albemarle county, Va.; died 1826.

1791—Count Mirabeau, orator, statesman and revolutionist, died in Paris; born 1749.

1865—Richard Cobden, called in England "the friend of America," died; born 1804; he was eminent also as a free trader.

1872—Professor Samuel Finley Breese Morse, inventor of magnetic telegraph, died in New York; born at Charlestown, Mass., 1791. Morse was an artist of talent and fame before he turned inventor. He studied painting in London under Benjamin West, where Fulton, the steamboat projector, also learned his art. On a voyage home he suggested to his fellow passengers the idea of an electric telegraph. He operated a small line successfully in 1835, and in 1843 received a grant from congress to construct a line between Baltimore and Washington. The result has been called the greatest triumph ever obtained by human genius over space and time.

1885—Franz Abt, German composer, died; born in Saxony 1819.

1891—General Albert Pike, eccentric lawyer and poet and a prominent Freemason, died in Washington; born in Massachusetts 1839.

## DEMOCRACY AND THE SOUTH.

If there is any class of people that should shake the democratic party, for all time to come, it is the people of the southern states.

If there is any section of the country that needs protection more than another, it is the south.

The three principle industries sugar rice and cotton, under the wise provisions of the McKinley bill, were in a fair way for rapid development. Why the democratic party, with its boasted solid south, should so ruthlessly attack this stronghold, is one of the unsolved mysteries. Yet this was positively what was done. The sugar planter doing business under government contract, was voted out of existence. The cotton planter finds his product so cheap, and in so little demand for home consumption, that the crop is hardly worth the raising, while the rice plantation is a burlesque, so far as profit is concerned.

Recent custom house statistics show that the United States imported 20,000,000 pounds more rice in five months ending with January last, than during the same period the year before, and all because of democratic free trade tendencies. Every intelligent man in the country knows that the south is just as capable of producing all the rice necessary to American consumption, as the north is of producing wheat.

It is high time that the south organized a white republican party for self protection, and this is being done in many sections. Democracy is a howling farce, even in the house of its best friend.

The receipts of foreign goods at the port of New York city from September 1, 1893 to March 1, 1894, was \$191,000,000, and from September 1, 1894, to March 1, 1895, \$232,000,000, an excess of \$41,000,000. This is a practical example of democratic free trade. Every dollar of excess means a dollar stolen from American labor, without a shadow of benefit to this country, and yet there are intelligent people who cling to free trade democracy.

The United States imported one and three-quarters million dollars worth more French silk in January last than during January, 1894. No wonder American silk mills are idle.

The United States own something over two million mules; the average price in 1892 was 75. The average price today is \$28 less.

## DECISION DEFERRED.

Fears That a Ruling on Income Tax Will Not Be Made Until Early in May.

Washington, April 2.—There is good authority for the statement that the Supreme court will not render its decision in the income tax case until after the 15th of April, and probably not before the first Monday in May. That would necessitate making returns under the law and the impositions of penalties in cases where avoidance was due to waiting to see what the Supreme court would decide. Great concern is expressed by treasury officials that the court did not decide the matter yesterday. They are embarrassed, because delay causes prospective taxpayers to postpone the transmission of their returns. Returns under the law must be made on or before the 15th of April, at which date the tax becomes payable, and the taxpayers are given until the first of June to make payment. So long as the court renders no decision on the case the law stands. There are many suppositions as to the cause of the delay in announcing a decision, the most general one being that the court will determine that the law is constitutional or by an evenly divided court refuse to make any declaration. This would necessarily uphold the law and cause it to remain in force just the same as it had been declared constitutional by a unanimous vote of the court. It is said three justices are for the law, three against it, and two undecided. If one of these latter were convinced finally that the law was constitutional the evenly divided bench would uphold it. The delay would thus be explained by the endeavor to secure a majority or a tie on the question. It is possible that the court is waiting for Justice Jackson to come and help give a decision.

## REVOLVER IN HAND HE DEFIED ARREST

### SHERIFF APPLEBY'S EXCITING MAN HUNT YESTERDAY.

He and Detective Valey Followed Lewis Klingburg Through Thickets and Marshes and Finally Cornered Him—Stood His Ground With a Gun But Was Knocked Down.

After a fifty mile chase through the marshes of the sugar river valley, Sheriff W. H. Appleby and Detective Peter Valey captured Lewis Klingburg last night. When they cornered him at last, Klingburg drew a gun and defied arrest but the sheriff filled him with the butt of his revolver.

All day yesterday they followed Klingburg's tracks, he being wanted for complicity in the Northwestern car burglary at Shopiere. The trail was a hot one and the officers traveled over two score of miles before they caught their man. Klingburg had evidently been apprised of the approach of the officers, as he made a number of cunning attempts to throw them off his trail. It appears that he left the home of his father, Fritz Klingburg, in the Sugar river valley, near the state line, taking a horse, wagon and camping outfit. He made his way into the marshes and thick undergrowth at that point, thinking, no doubt, that he would elude detection. Officers hearing of this, Sheriff Appleby, in company with the detective, started out yesterday to capture him. They were not long in striking the trail which led into the swamp.

Pulled a Revolver.  
Soon they came onto the place where Klingburg had camped the night before, and here they found the wagon track, but soon lost it. They then went to the home of the father, but were told that Louis was not there. Making a large circuit around the home they again found in a hidden byway the wagon tracks and followed them in a circle back to the house where they found the wagon. A second inquiry for their man was answered with the same statement, that he was not at home. Sheriff Appleby, however, thought he heard some one leave the house by a back door. He and the detective made a careful examination, and finally found Klingburg with a gun in his hand, hidden back of an old out house. He showed fight and it was not until he was knocked down by a blow from the butt end of a revolver by the sheriff, that he was captured. The officers took him to Beloit, arriving there at 3 o'clock this morning. Klingburg was brought here on the early morning train and lodged in jail.

When Sheriff Appleby brought Klingburg into the municipal court, the examination was adjourned until April 10, at 10 a. m., bail being placed at \$1,200, Klingburg going to jail.

Chicken Thieves Confess.  
There seems to be a pretty good case against the Rice brothers who are charged with robbing Beloit hen roosts. The marshal of Broadhead passed through Janesville with the two brothers in charge and they will be arraigned on several charges at that place. The mayor of Broadhead telegraphed Marshal Appleby of Beloit, that a third one of the Rice boys was there and could be arrested if he was wanted and Marshal Appleby at once asked to have him arrested, for the two who had been arrested in Beloit confessed to the marshal that they were thieves and implicated the other brother. They have been stealing selling poultry by the wagon load.

After the brothers had sold \$34 worth at William Rouse's market Saturday, they went to a relative's house over the line. Soon after an Illinois farmer came to the city and identified the stolen property and the police were "put on." Then Officer Scheibel and Lou Bibbins, of the market, went over to the house where they were stopping and Bibbins told one of the men that they had not dealt fair with him, as the chickens he had just bought were dying with cholera.

"I think you ought to come up and make it right," said Bibbins.

"We are square men," said Rice; "you bet we will make it right," and he came up into Wisconsin to attend the matter, and officer Scheibel nabbed him. A little later the second brother was arrested at the livery stable where he was looking after his team, and Mr. Rouse received his money back.

Lentz-Brehmer Case Again  
The case of Lentz against Brehmer was called in the municipal court this morning and continued until Monday next. This is a suit brought by a son-in-law of Brehmer to recover for board, care and medicine furnished while the old gentlemen was sick at the home of the plaintiff, a son-in-law.

The case of the state against Edward Henroth who is charged with receiving goods stolen from the car, came up in the municipal court this morning and was continued until April 15, at 10 a. m.

THOMAS KING CHOSEN AS JANITOR  
Will Read the New High School Boiler-Board Met with Prof. D. D. Mayne.

Thomas King, the veteran locomotive engineer of the Chicago & Northwestern railway, was last evening elected janitor of the new high school building, his salary being placed at \$75 per month. The position is a responsible one, there being many complications in the heating and ventilating apparatus, besides the high pressure steam boilers which will require the care and attention of an experienced engineer. No man is better qualified for the position than Mr. King, and the school board is to be congratulated on their choice of so capable a janitor.

The meeting of the board, which was the last regular meeting of the present commissioners, was held at the home of Superintendent D. D. Mayne, corner of Park and South First street. Miscellaneous bills amounting to about eight dollars, were allowed. Clark & Stewart were allowed \$1,400 on the high school contract.

The business being concluded, the meeting partook of a social turn, refreshments being served, and an hour or more was spent in sociability. There were present, Commissioners A. G. Anderson, F. L. Clemons, Theo. W. Goldman, P. J. Mount, and John Weisend, Ex-Commissioners M. Phelps and John Sligntam. Refreshments were served by the host and hostess, and the concluding regular meeting of the school board was one of the pleasantest of the year.

## BABY CONTEST OPEN BALLOTS IN DEMAND

MUCH INTEREST IS SHOWN IN  
THE CONTEST.

Five Shares of Stock in the Rock County Building Loan and Savings Association Will be Given the Winner June 1—Value at Maturity Is \$500 and It Is Non Assessable.

The polls for The Gazette contest for the babies is now open and the ballot will be found at the close of this article and will run until June 1, when the contest will close. Much interest is centered in The Gazette's offer to present the baby who gets the highest number of votes with \$500 worth of stock in the Rock County Building Loan and Savings Association. It is a prize worth getting, for naturally it will be worth just half a thousand dollars. That will be a nice nest egg if kept at interest after maturity until the child becomes old enough to want to use it.

It will buy an education.  
It will buy a building lot.  
It will buy a piano and the lessons necessary to play upon it.

It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened this morning and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Cut the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

## THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

—ONE VOTE FOR—

Of Janesville, Wis.

Swept By a Cyclone.

Of appreciation to the pinnacle of popularity, Hostetter's Stomach Bitters has acquired a commanding position, which has occasionally made it a bright and shining mark for knaves, who seek to foist upon the community spurious compounds in the guise akin to that of the real article. These are mostly local bitters or tonics of great impurity, and of course, devoid of medicinal efficacy. Beware of them and get the genuine Bitters, a real remedy for malaria, rheumatism, kidney trouble, dyspepsia, nervousness, constipation and biliousness. Physicians of eminence everywhere commend the great invigorant, both for its remedial properties and its purity. A wineglass thrice a day will soon bring vigor and regularity to a disordered and enfeebled system.

If the Baby is Cutting Teeth,

Be sure and use that old and well tried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

A great many machines that had been run over by ice wagons, street cars, trucks, etc., have been returned for repairs, but not a single frame with a piece of broken tubing or defective brazed joint, nor a broken or defective forging has as yet shown up.

# SUNDAY'S SERMON BY DR. TALMAGE

"THE GOSPEL SHIP IS UNDER FULL SAIL."

"Thou Shalt Come Into the Ark, Thou and Thy Wife and Thy Sons' Wives With Thee"—Taken From Genesis 6:18.

In this day of the steamships, Lucania and the Majestic and the Paris I will show you a ship that in some respects eclipsed them all, and which sailed out, an ocean underneath and another ocean falling upon it. Infidel scientists ask us to believe that in the formation of the earth there have been a half dozen deluges, and yet they are not willing to believe the Bible story of one deluge.

In what way the catastrophe came we know not; whether by the stroke of a comet or by flashes of lightning, changing the air into water, or by a stroke of the ax between the horns of the ox, the earth staggered. To meet the catastrophe God ordered a great ship built. It was to be without prow, for it was to sail to no shore. It was to be without helm, for no human hand should guide it. It was a vast structure, probably as large as two or three modern steamers. It was the Great Eastern of olden time.

The ship is done. The door is open. The lizards crawl in. The cattle walk in. The grasshoppers hop in. The birds fly in. The invitation goes forth to Noah: "Come thou and all thy house into the ark." Just one human family embark on the strange voyage, and I hear the door slam shut. A great storm sweeps along the hills, and bends the cedars until all the branches snap in the gale. There is a moan in the wind like unto the moan of a dying world. The blackness of the heavens is shattered by the flare of the lightnings, that look down into the face of the mountains. How strange it looks! How suffocating the air seems! The big drops of rain begin to plash upon the upturned faces of those who are watching the tempest. Crash! go the rocks in convulsion. Boom! go the bursting heavens. The inhabitants of the earth, instead of flying to house-top and mountain-top, as men have fancied, sit down in dum, white horror to die. For when God grinds mountains to pieces and lets the ocean slip its cable, there is no place for men to fly to. See the ark pitch and tumble in the surf; while from its windows the passengers look out upon the shipwreck of a race, and the carcasses of a dead world. Woe to the mountains! Woe to the sea!

I am no alarmist. When, on the twentieth of September, after the wind has for three days been blowing from the northeast, you prophesy that the equinoctial storm is coming, you simply state a fact not to be disputed. Neither am I an alarmist when I say that the ark is coming, compared with which Noah's deluge was but an April shower; and that it is wisest and safest for you and for me to get safely housed for eternity. The invitation that went forth to Noah sounds in our ears: "Come thou and all thy house into the ark."

Well, how did Noah and his family come into the ark? Did they climb in at the window, or come down the roof? No; they went through the door. And just so, if we get into the ark of God's mercy it will be through Christ the door. The entrance to the ark of old must have been a very large entrance. We know that it was from the fact that there were monster animals in the earlier ages; and, in order to get them into the ark, two and two, according to the Bible statement, the door must have been very wide and very high. So the door into the mercy of God is a large door. We go in, not two and two, but by hundreds, and by thousands, and by millions. Yea, all the nations of the earth may go in, ten millions abreast.

There comes upon the good man a deluge of financial trouble. He had his thousands to lend; now he cannot borrow a dollar. He once owned a store in New York, and had branch houses in Boston, Philadelphia, and New Orleans. He owned four horses, and employed a man to keep the dust off his coach, phaeton, carriage and curicle; now he has hard work to get shoes in which to walk. The great deep of commercial disaster was broken up, and fore and aft, and across the hurricane-deck, the waves struck him. But he was safely sheltered from the storm. "The Lord shut him in!" A flood of domestic troubles fell on him. Sickness and bereavement came. The rain pelted, the winds blew. The heavens are aflame. All the gardens of earthly delight are washed away. The mountains of joy are buried fifteen cubits deep. But standing by the empty crib, and in the desolated nursery, and in the doleful hall, once airing with merry voices, now silent forever, he cried: "The Lord gave, the Lord hath taken away; blessed be the name of the Lord." "The Lord shut him in." All the sins of a lifetime clamored for his overthrow. The broken vows, the dishonored Sabbaths, the outrageous profanities, the misdemeanors of twenty years, reached up their hands to the door of the ark to pull him out. The boundless ocean of sin surrounded his soul, howling like a simoon, raving like an euroclydon. But, looking out of the window, he saw his sins sink like lead into the depths of the sea. The dove of heaven brought an olive branch to the ark. The wrath of the billow only pushed him toward heaven. "The Lord shut him in!"

The same door fastenings that kept Noah in keep the troubles out. I am glad to know that when a man reaches heaven all earthly troubles are done with him. Here he may have had it hard to get bread for his family; there he may never hunger any more. Here he may have wept bitterly; there "the Lamb that is in the midst of the throne" will lead him to living fountains of water, and God will wipe away all the tears from his eyes. Here he may have hard work to get a house; but in my Father's house are many mansions, and rent-day never comes. Here there are deathbeds, and coffins, and graves; there no sickness, no weary watching, no choking cough, no consuming fever, no chattering chill, no tolling bell, no grave. The sorrows of life shall come up and knock at the door, but no admittance. The perplexities of life shall

come up and knock on the door, but no admittance. Safe forever! All the agony of earth in one wave dashed against the bulwarks of the ship of celestial light shall not break them down. Howl on, ye winds, and rage, ye seas! The Lord—"The Lord shut him in!"

Oh, what a grand door! so wide, so easily swung both ways, and with such sure fastenings. No burglar's key can pick that lock. No swarthy arm of hell can shove back that bolt. I rejoice that I do not ask you to come aboard a crazy craft with leaking hull, and broken helm, and unfastened door; but an ark fifty cubits wide, and three hundred cubits long, and a door so large that the round earth, without grazing the post, might be bowled in!

Now, if the ark of God is so grand a place in which to live, and die, and triumph, come into the ark. Know well that the door that shut Noah in shut others out; and though, when the pitiless storm came pelting on their heads, they beat upon the door saying, "Let me in! let me in!" the door did not open. For one hundred and twenty years they were invited. They expected to come in but the antediluvians said, "We must cultivate these fields; we must be worth more flocks of sheep and herds of cattle; we will wait until we get a little older; we will enjoy our old farm a little longer." But meanwhile the storm was brewing. The fountains of the heaven were filling up. The pry was being placed beneath the foundations of the great deep. The last year had come, the last month, the last week, the last day, the last hour, the last moment, in an awful dash, and another dropped from the sky, and another rolled up from beneath, and God rolled the earth and sky into one wave of universal destruction.

I have no doubt that derision kept many people out of the ark. "The world laughed to see a man go in, and said, 'Here is a man starting for the ark. Why, there will be no deluge. If there is one, that miserable ship will not weather it. Ah! going into the ark! Well, that is too good to keep. Here, fellows, have you heard the news? This man is going into the ark.' Under this artillery of scorn the man's good resolution perished."

My friends and neighbors, come in right away. Come in through Christ, the wide door—the door that swings out toward you. Come in, and be saved. Come and be happy. "The Spirit and the Bride say, Come." Room in the ark! Room in the ark!

But do not come alone. The text invites you to bring your family. It says, "Thou and all thy house into the ark." "Thou and thy sons and thy wife." You cannot drive them in. If Noah had tried to drive the pigeons and the doves into the ark, he would only have scattered them. Some parents are not wise about these things. They make iron rules about Sabbath, and they force the catechism down the child's throat, as they would hold the child's nose and force down a dose of purgative and calomel. You cannot drive your children into the ark. You can draw your children to Christ, but you cannot coerce them. The cross was lifted, not to drive, but to draw. "If I be lifted up, I will draw all men unto me." As the sun draws up the drops of morning dew, so the son of righteousness exhales the fears of repentance.

Be sure that you bring your husband and wife with you. How would Noah have felt if, when he heard the rain pattering on the roof of the ark, he knew that his wife was outside in the storm? No; she went with him. And yet some of you are on the ship "outward-bound for heaven; but your companion is unsheltered. You remember the day when the marriage-ring was set. Nothing has yet been able to break it. Sickness came, and the finger shrank, but the ring staid on. The twin stood alone above the child's grave, and the dark mouth of the tomb swallowed up a thousand hopes; but the ring dropped not into the open grave. Days of poverty came, and the hand did many a hard day's work; but the rubbing of the work against the ring only made it shine brighter. Shall that ring ever be lost? Will the iron clang of the sepulchre crush it forever; I pray God that you who have been married on earth may be together in heaven. Oh! by the quiet bliss of your earthly home; by the babe's cradle; by the vows of that day when you started life together, I beg you to see to it that you both get into the ark.

Come in, and bring your wife or husband with you—not by fretting about religion, or dinging-donging them about religion, but by a consistent life, and by a compelling prayer that shall bring the throne of God down into your room. Go home and take up the Bible and read it together, and then kneel down and commend your souls to him who has watched you all these years; and, before you rise, there will be a fluttering of wings over your head, angel crying to angel, "Behold! they pray!"

But this does not include all your family. Bring the children. God bless the dear children. What would our homes be without them. We may have done much for them. They have done more for us. What a salve for a wounded heart there is in the soft palm of a child's hand! Did harp or flute ever have such music as there is in a child's "good-night?" From our coarse, rough life, the angels of God are often driven back; but who comes into the nursery without feeling that angels are hovering around? They who die in infancy go straight to glory, but you are expecting your children to grow up in this world. Is it not a question then, that rings through all the corridors, and windings, and heights, and depths of your soul, what is to become of your sons and daughters for time and eternity? "Oh!" you say, "I mean to see that they have good manners." Very well. "I mean to dress them well, if I have myself to go shabby." Very good. "I shall give them an education, I shall leave them a fortune." Very well. But is that all? Don't you mean to take them into the ark? Don't you know that the storm is coming, and that out of Christ there is no safety? No hope? No heaven? How to get them in? Go in yourself! If Noah had stayed out, do you not suppose that his sons—Shem, Ham, and Japheth—would have stayed out? Your sons and daughters will be apt to do just as you do. Reject Christ yourself, and the possibility is that your children will reject him.

An account was taken of the religious condition of families in a certain district. In the families of pious parents, two-thirds of the children were Christians. Which way will you take your children? Out into the deluge, or into nest prayer for their immortal souls? the ark? Have you ever made one ear. What will you say in the judgment, when God asks, "Where is George, or

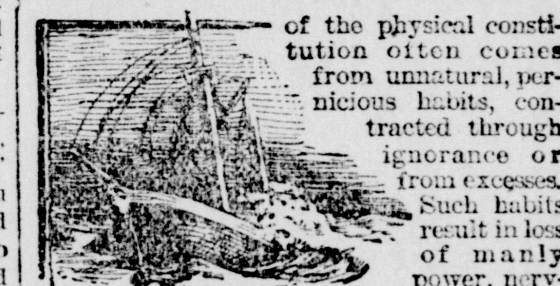

Henry, or Frank, or Mary, or Anna? Where are those precious souls whose interests I committed into your hands?" A dying son said to his father, "Father, you gave me an education, and good manners, and every thing that the world could do for me; but, father, you never told me how to die; and now my soul is going out in the darkness."

In St. Paul's, London, there is a whispering-gallery. A voice uttered most feebly at one side of the gallery is heard distinctly at the opposite side, a great distance off. So every word of earnest prayer goes all around the earth, and makes heaven a whispering-gallery. Go into the ark—not to sit down, but to stand in the door, and call until all the family comes in. Aged Noah, where is Japheth? David, where is Absalom? Hannah, where is Samuel?

On one of the lake steamers there was a father and two daughters journeying. They seemed extremely poor. A benevolent gentleman stopped up to the poor man to proffer some form of relief, and said: "You seem to be very poor, sir." "Poor, sir," replied the man, "if there's a poorer man than me a trouble in the world, God pity both of us!" "I will take one of your children, and adopt it, if you say so. I think it would be a great relief to you." "A what?" said the poor man. "A relief?" "Would it be a relief to have the hands chopped off from the body? or the heart torn from the breast? A relief, indeed! God begood to us! What do you mean, sir?" However many children we have, we have none to give up. Which of our families can we afford to spare out of heaven? Will it be the oldest? Will it be the youngest? Will it be that one that was sick some time ago? Will it be the husband? Will it be the wife? No! No! We must have them all in. Let us take the children's hands, and start now. Leave no one behind! Come, father! Come, mother! Come, son! Come, daughter! Come, brother! Come, sister! Only one step, and we are in. Christ, the door, swings out to admit us; and it is not the hoarseness of a stormy blast that you hear, but the voice of a loving and patient God that addresses you, saying, "Come thou and all thy house into the ark." And there may the Lord shut us in!

**CLEAR EYES,**  
a clear skin, a clear head, a clear system—come from the Carlsbad Sprudel Salt.

Partly, because of its cleansing, purifying action upon the blood, and because of its solvent, strengthening, stimulating action upon the liver, kidneys, stomach and bowels. It brings them back to a healthy, natural condition, in a natural way.

Habitual constipation, biliousness, loss of appetite, defective nutrition, dyspepsia—every one of these has a time-tried remedy in the Carlsbad Sprudel Salt. It is the actual water of the Sprudel Spring, solidified and put into powder form on the spot. For chronic catarrh of the stomach and other stomachic diseases use the imported Carlsbad Sprudel Water, and add a small dose of the Carlsbad Sprudel Salt to a tumblerful of the water whenever a laxative action is desired.

Do not be imposed upon by unscrupulous dealers, who will sell you a mixture of Sciditz Powder or Glauber Salt as "Improved Carlsbad Salt" or "Artificial Carlsbad Salt," "German Salt," or under other names.

Insist upon the genuine article, which must have the signature of "EISNER & MENDELSON Co., Sole Agents, New York," on every bottle.

### Will Send a Bullet Two Miles.

Baltimore, Md., April 2.—Capt. Morschlager of the steamship La Campine visited Fort McHenry yesterday and exhibited to the soldiers a new German repeating rifle with which he did some remarkable shooting. It is of 32-caliber, and the barrel is made of three tubes, one inside the other, on the same plan as the Krupp gun. The inner tube is drilled and of hard tempered steel. The powder used is a smokeless nitro-glycerine explosive, which makes little report and no smoke. Fired along at the height of the shoulder the bullet will go nearly two miles before its force is spent, and at 2,000 yards it would pierce the bodies of seven men placed one behind the other.
